

Adobe Sign for Microsoft Dynamics 365 for Talent

Hire candidates quickly, easily, and securely.

Accelerate the hiring process across your organization with Adobe Sign, the preferred e-signature solution for Microsoft customers. The Adobe Sign integration for Dynamics 365 for Talent reduces frustrating delays in offer approvals by making it easy to send and track legally binding offer letters without leaving the Dynamics 365 for Talent application. And candidates can sign anywhere, anytime, on any device.

Speed hiring.

When it comes to hiring the right candidate, timing can be everything. By adding Adobe Sign to your existing Dynamics 365 for Talent workflow, you can accelerate the offer process and make it easy for candidates to say yes right away. Adobe Sign works inside Dynamics 365 for Talent, so HR managers and hiring partners can send out offers from inside the business tool they already rely on.

Eliminate the administrative overhead of overnighting paper documents or attaching offers to email messages. Now you can simply log in to your Adobe Sign account to access built-in e-sign capabilities in the Attract module of Dynamics 365 for Talent—no additional software or configuration needed. And candidates immediately get an email notification that their offer letter is ready to be signed. All they have to do is click a link in the email and follow a few simple prompts to sign—from any device.

Adobe Sign helps your organization fill positions faster.

Speed up hiring and reduce frustrating delays

Improve visibility of offer letters

Improve customer experience for candidates

Reduce business risks in approval processes

Enable managers to send offers from any device

Leverage powerful new tools that are easy to install and use

"Adobe Sign is a game changer for onboarding, boosting savings, efficiency, and compliance."

Know what happens—and when.

Take the mystery out of approvals by tracking and managing all your offer letters inside Dynamics 365 for Talent. Whether you're seeking internal approval for offers you're planning to extend to candidates or waiting for candidates to approve offers you've already made, Adobe Sign makes it easy to follow your documents through every step of the process—and jump in quickly when unexpected delays occur.

You can also track outstanding offers from your phone or tablet when you're on the go, so you always know where they stand. And every step is logged and captured in a secure audit trail that stays with the signed contract inside Dynamics 365 for Talent—so you can automatically archive records for each approval.

Rely on a trusted solution.

Adobe is the world's leader in secure digital documents, and its solutions are trusted by organizations around the world. Adobe Sign provides the highest level of global security standards to protect your documents and data. It is fully compliant with all major international laws, as well as PCI DSS 3.0, HIPAA, SOC 2–Type 2, and ISO 27001. It supports [digital signatures](#) and [e-signatures](#), so offers signed with Adobe Sign for Dynamics 365 for Talent are legally valid, trusted, and enforceable in nearly every industrialized country around the world. And you can rest assured your offer letters are tamper-proof thanks to a digital seal that ensures document integrity.

Integrate with ease.

Adobe Sign works natively with Microsoft Dynamics 365 for Talent, so you can integrate it into your current document processes with no coding required. And your teams can manage their entire e-signature workflow without ever leaving Dynamics 365 for Talent.
