MOBILE WAREHOUSE SOLUTION

**OPTIMIZE WAREHOUSE PROCESSES WITH
A MOBILE WMS SOLUTION FOR MICROSOFT
DYNAMICS 365 BUSINESS CENTRAL AND
DYNAMICS NAV**

Mobile WMS from Tasklet Factory is a mobile
barcode scanning solution that supports the work
processes in the warehouse and integrates to the
standard functions of Microsoft Dynamics 365
Business Central and Dynamics NAV.

It features a stunning graphical user interface
which is easy to use and can be configured to fit
the needs of the individual user. Your warehouse
employees will be more efficient and make
fewer mistakes as **Mobile WMS** provides the
tools and information needed to work effectively.

ADVANTAGES

ANDROID OS
The **Mobile WMS** solution supports the Android operating system. This leads to a stable and future proof solution
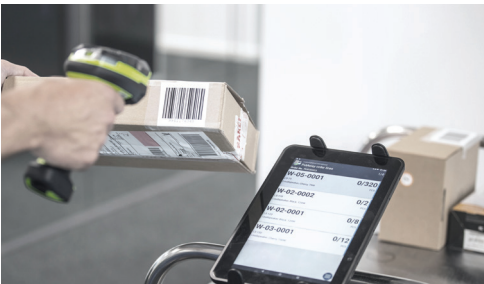

USER-FRIENDLY
Mobile WMS has been designed with focus on minimizing clicks and irrelevant information. Users will spend minimal time on user training

ON/OFFLINE FUNCTIONALITY
The core working processes can be performed without any network connection. The result is a stable solution with great performance

ADVANTAGES

INSTALLED IN JUST 2 DAYS
Mobile WMS is a true turnkey solution that can be up and running in 2 days

EASY TO CUSTOMIZE
Mobile WMS has been designed so it can be extended with custom functionality easily

INTEGRATES TO STANDARD
Installation and support of the solution is easy as it is directly integrated with the standard features of Dynamics 365 Business Central and Dynamics NAV
