for Microsoft Dynamics

# The eBECS AX 2012 Proof of Concept

*In just a few days we can prove to you how AX 2012 can transform **your** business*

## **Struggling to understand the full ramifications of an AX 2012 upgrade?**

### **eBECS offers the expert solution.**

With our targeted Proof of Concept approach you'll understand exactly what's required to get your Microsoft Dynamics AX 2012 upgrade off the ground and really flying.

Because it's a targeted approach you benefit from our expert functional architects, project managers and technical consultants engaging with you on-site to fully understand your business objectives. Even better, in just a few days you'll have a clear Business Transformation Plan detailing how your business can implement and benefit from AX 2012.

### **Expertise we provide as part of your Proof of Concept includes:**

- Solution architects up to date with the latest releases through our close relationship with Microsoft.
- In-depth understanding of all versions of AX, plus leading knowledge of upcoming releases.
- Clear definition of the gap between your previous AX version and AX 2012.
- Recommendations on how your business can gain further value through process improvements made possible by AX 2012.
- Data migration specialists and proven data migration options for all types of upgrades.
- BI specialists who will reveal how you can use the latest SQL and Excel PowerPivot capabilities to capitalize on the BI opportunities presented by AX 2012 R3.
- BI visioning to ensure that you maximize the data you are collecting and tailor data access to meet your users' needs, e.g. AX cubes connected to EP (Enterprise Portal), SSRS (SQL Server Reporting Services), PowerPivot and ZAP.

To this deep AX knowledge, industry expertise and Microsoft relationship, we add Project Management expertise that keeps everything on track and on budget.

### **Distressed AX Project Recovery**

If you're already on the implementation path but are not happy with the way the project is progressing, our expert Project Management can be used for rapid AX project recovery.

**Get in touch now and discover why**

**eBECS = AX + CRM + BI = MBS**

**"With eBECS' deep knowledge in AX 2012 and our industry, we were able to quickly understand what it would take to upgrade and communicate that to our stakeholders."**
