

Environmental Reporting

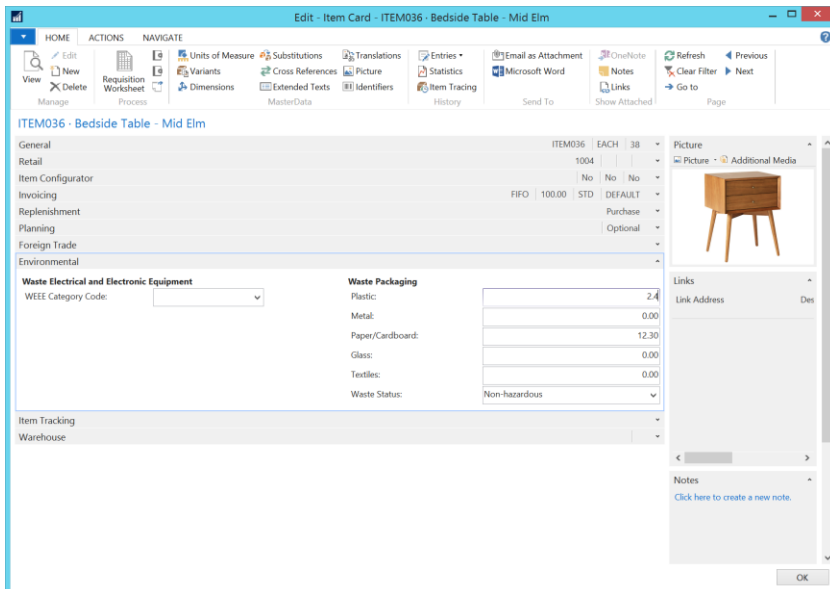

eBECS Accelerators for Dynamics NAV

Overview

Increasing environmental legislation can put an additional burden on organisations to ensure compliance and produce the necessary statutory reporting.

The eBECS Accelerators for Dynamics NAV environmental reporting module adds additional reporting capabilities to Dynamics NAV to monitor environmental factors and produce periodic reports to aid in the completion of statutory compliance reporting.

Reporting is possible on both waste packaging and waste electrical and electronic equipment and information can be captured throughout the application including imports, goods manufactured and goods sold.

Environmental journals allow information to be collated in line with reporting periods and any additional entries to be entered on the system allowing reports to be generated to aid in the completion of statutory reporting.

Benefits

- **Reduce Administration**
Automatically collect data on waste packaging and quickly produce periodic reports on waste packaging and waste electrical and electronic equipment.
- **Ensure Compliance**
Produce reports containing the information needed to allow accurate statutory reporting.
- **Reduce Waste**
By continuously monitoring levels of waste produced organisations have the opportunity to review and reduce waste, potentially reducing costs and an organisation's environmental footprint.

Features

Simple Data Setup

Information such as Waste Electrical and Electronic Equipment (WEEE), waste packaging types and weights and hazardous material designations can be simply set against applicable item records. This provides a repository of information that is utilised to collect, collate and report on environmental factors on inventory transactions and movements throughout the application.

Environmental Journals

A new journal type has been added to the application to facilitate the collation of data and production of reports containing the information required to complete statutory reports. The journal can display transactions that need to be included in the reporting and allows additional manual entries to be created to reflect any other transactions that need to be included.

The screenshot shows a software interface for editing an environmental journal for February 2016. The interface includes a menu bar with 'HOME', 'ACTIONS', and 'NAVIGATE'. Below the menu are icons for 'Delete', 'Get Entries...', 'Waste Electrical and Electronic Equipment', 'Waste Packaging', 'Refresh', and 'Find'. A 'Batch Name' dropdown is set to 'FEB2016'. The main area contains a table with the following data:

Type	Date	Document No.	Item No.	Item Description	Quantity	WEEE Categor...	Net Weight	Total Weight	Waste Packaging-Plastic	Waste Packaging-Metal	Pack
Receipt	16/02/2016	REC-0066	ITEM012	LG F14B8QDA Freestanding Washi...	1	01	1,000.00	1,000	10.00	0.00

Receipt	24/02/2016	REC-0075	ITEM013	Dyson V6 Absolute Cordless Vacu...	1	02	500.00	500	0.00	0.00	

Reporting

From the environmental journal the following reports can be produced to allow the completion of statutory reporting:

- Waste Electrical and Electronic Equipment
- Waste Packaging

Total Microsoft Business Solutions

About eBECS

eBECS is a specialist in total Microsoft Business Solutions, designing and delivering Lean and agile solutions globally for customers in Manufacturing, Distribution, Retail, Services, Not-for-profit and other sectors.

Tailored to industry and business needs, eBECS' award-winning solutions cover Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), Mobile, Field Service, Data Analytics, Business Intelligence (BI), the Internet of Things (IoT), and Cloud and Managed Services. eBECS' solutions draw on the full Microsoft Business stack, including Microsoft Dynamics AX and NAV, Microsoft Dynamics CRM, Microsoft FieldOne, SharePoint Office 365, Microsoft BI and Power BI, Power Apps, and Microsoft Azure.

Just as importantly, eBECS' 'templated' implementation and unique rapid-return methodologies deliver significant time and cost benefits to its customers
