eBECS Invoice Automation Accelerator for Microsoft Dynamics 365

Faster, simpler invoice processing and improved supplier relationships

Overview

The eBECS Invoice Automation Accelerator for Microsoft Dynamics 365 provides powerful extended functionality to automate invoice processing by linking ReadSoft Online, the market-leading cloud-based invoice capture, extraction and validation service, with Microsoft Dynamics 365 for Finance & Operations. ReadSoft Online validates the purchase invoice data and sends the relevant information into Dynamics 365 for Finance & Operations for authorisation and posting, with the PDF copy of the invoice retained and attached to the transaction.

Key benefits of the eBECS Accelerator invoice automation solution include faster invoice processing and reduced costs, along with improved financial controls and increased data accuracy.

Seamless invoice processing in the cloud

The use of cloud-based solutions in company finance departments in on the rise. The reasons for this are clear.

No longer weighed down by the need for manual processes or costly on-premises implementations that require expensive hardware and IT resources, companies are finding they can speed up processing times while substantially reducing effort and costs.

When you leverage ReadSoft Online alongside Dynamics 365 for Finance & Operations to accurately capture, extract and validate invoice data, you are able to transform accounts payable into a transparent, controlled and strategic business unit.

A DXC Technology Company

As the market leader in this area, ReadSoft Online provides a true multitenant SaaS solution that is monitored and optimised around the clock by a dedicated cloud services team. This ensures the best possible invoice automation performance, with an average uptime of 99.9%.

Improved financial controls mean you'll have instant access to invoice data and financial statements. This allows you to stay on top of performance metrics, compliance reporting and approval process tracking. You'll also benefit from better audit trails and the elimination of fraudulent and duplicate invoices. And all with a simple solution integrated within your powerful, easy to use Microsoft Dynamics for Finance & Operations system.

What's more, the solution provides secure 24/7 access from anywhere. So whether your staff are away from the office or working early or late, they'll always have access to ReadSoft Online via an Internet connection.

By leveraging your existing systems, the solution also avoids the need for expensive hardware and costly depreciation, so you get low TCO and fast ROI.

Key benefits

- Improved supplier relationships — through faster invoice processing, elimination of late-payment penalties and increased early payment discounts.

- Reduced processing costs — eliminate manual keying and manual verification.

- Improved financial controls — the combined power of Dynamics 365 and ReadSoft Online offers access to instant, highly accurate financial statements. Tighter control also means no fraudulent invoices are paid, and no invoice is paid twice.

- Increase data accuracy — with the combination of Dynamics 365 and ReadSoft Online, invoice data can be validated against PO and supplier master data to line item level.

About eBECS, a DXC Technology Company

eBECS is an award-winning Microsoft Gold Partner delivering **Total Microsoft Business Solutions** and **Managed Services** globally that help customers digitally transform their businesses, cut complexity and cost, improve customer service and drive growth. We do this using tailored, industry-focused Microsoft Dynamics 365 solutions that embrace Finance & Operations (AX and NAV ERP), Sales, Marketing, Customer Service (CRM), Talent/HR, Field Service, Project Service Automation, Analytics, BI and IoT — on-premises or in the Microsoft Azure intelligent cloud.

DXC Technology (DXC: NYSE) is the world's leading independent, end-to-end IT services company, helping clients harness the power of innovation to thrive on change.
